

Title: Senior Credit Risk Analyst

Location: Lakewood, CO

United Energy Trading is currently seeking an innovative and results-oriented individual to join our Credit and Commodity Risk team.

Reporting to the Director, Credit Risk, the Senior Analyst, Credit Risk is responsible for the management of a diverse portfolio of commodity and commercial counterparties and related credit risk activities.

Responsibilities:

- Analyzing and assessing the financial condition and creditworthiness of new and existing counterparties. Provide analysis, recommendations, and authorizations for counterparty credit limits
- Monitoring the portfolio on a daily basis to manage credit exposures
- Making decisions and recommendations in a timely manner without complete information.
- Providing input into the implementation of new business processes and procedures.
- Growing and maintaining relationships with external counterparties and peers to facilitate commercial relations, knowledge sharing, and bilateral contract negotiations. Work closely with internal groups (front office, schedulers, legal and KYC) to create a cohesive and effective work dynamic.
- Effectively and appropriately communicating with management, internal customers and external counterparties.
- Ensuring effective risk management practices by keeping informed of industry standards and addressing any material gaps.

Education:

- University degree
- MBA/CFA/CPA designation also an asset.

Experience:

- 5+ years of related experience within credit risk management with a strong understanding of corporate financial statements, credit underwriting, and commodity trading.

Technical Skills:

- Proficiency with Excel and Word and analytical skills are required. Basic understanding of ETRM systems, specifically RightAngle/Entrade is also an asset.
